Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 5-10 and 12 have been canceled as they are directed to an invention non-elected without traverse.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant's amendments and arguments are deemed to distinguish the claims over the prior art of record. In particular, Goble et al fails to disclose categorizing the diameters of blood vessels and comparing maximum current values based on the categorized blood vessels and setting output values based on subcategorizing results as now set forth in method claims 17 and 18. Goble et al, and the remainder of the prior art, are silent with respect to categorizing the tissue by blood vessel diameters and setting output values accordingly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
